

FLASH—LONDON, Oct. 17—The British Navy occupies Ostend. German armies in France and Belgium have been ordered to cease devastating the occupied areas henceforth. The entire German army of Von Arnim, comprising seventeen divisions, are in full retreat in Belgium. The Allies have captured Lille, Courtrai and 20 villages, with huge stores of war materials and prisoners. Enemy U-boats have all been removed from Ostend to a point behind the German mine fields in North Sea. The Belgian army is now marching towards Ostend, that city, Zeebrugge and Bruges are evacuated.

NUMBER 13

Mr. Kerr Forecasts Conditions After War

Gives Interesting Address Before Board of Trade

Mr. R. B. Kerr is one of the few prophets whose words are looked upon as wisdom even in his own country, and his address on "Conditions After the War" to the members of the Board of Trade on Tuesday evening proved no exception to the reputation. Although the word "trade" had been eliminated from the title, yet the speaker announced that he would treat his subject chiefly from this aspect, as he believed that the price of apples and such like articles was to many the point of most importance.

What is to become of the returned soldiers, occupied the first place in Mr. Kerr's talk. In considering this problem he took into consideration the altered tastes and conditions of the men themselves as well as the many spheres of work which had been occupied by women who would prefer to continue in their present employment at good salaries in preference to going back to house work for nothing more than their keep. However, Mr. Kerr believed that the return of all the soldiers to a country like Canada need cause no bother. He thought it would simply be like the immigration in the boom days gone by. The tremendous amount of building which would start after the war would alone find employment for a vast number of men, while farm lands for the soldiers would take a large number. He thought the great question was whether the country could keep up the consumption which the additional labour would make necessary.

As for the labourer, Mr. Kerr believed that his wages would never drop again to what they had been, especially in the case of the farm worker, while he believed that a great diminution in the hours of labour would take place.

The problem of the returned soldier was discussed and followed by a few words on the national debt. The latter he believed was of small importance so long as it was kept within the country. A good deal was said on the subject of whether prices would drop after the war, but Mr. Kerr believed that both the farmer and the farm labourer had got wise enough to see that their produce never sold again at the low prices of the past. A fascinating prophecy of an aeroplane mail service to Kelowna from the coast, and of the general use of air machines, concluded an address of the greatest interest, and one which listeners will remember for many days to come.

Subsequent speakers at the meeting were Messrs. C. E. Weeks and P. P. Woodbridge, while the thanks of the meeting were expressed by Messrs. E. C. Weddell and L. V. Rogers.

FLU HAS CANCELLED BOYS' CONFERENCE HERE

The Boys' Conference of The British Columbia Older Boys which was to have been held here on Friday, Saturday and Sunday next has been cancelled owing to the outbreak of Spanish influenza in the province. Although no cases have so far been reported in Kelowna, quite a large number of cases have been reported in towns from which many of the visitors would have come, and at the suggestion of various medical authorities the conference has been indefinitely postponed.

Women's Work and the Dept. of Agriculture

Mr. Bonavia Gives Mass of Facts and Figures to Conference Delegates

Mr. W. J. Bonavia, the secretary of the agricultural department at Victoria, gave a mass of interesting figures and information concerning the work and progress of Women's Institutes to the delegates at the Women's Institute conference held here on Tuesday, Wednesday and Thursday of last week. Speaking on Wednesday evening, Mr. Bonavia first regretted the enforced absence of Mr. W. T. McDonald, the acting deputy minister and superintendent of institutes, who had been sent to Edmonton to buy cattle for a colonization scheme of the Land Settlement Board.

The speaker, in telling of Institute work and progress, said that there were now sixty-two institutes, with a present membership of 2,377, which did not compare very well with their banner year of 1916, when there were over 3,000 members. Thirty-two Institute flower shows and exhibitions had been arranged for, which was good considering women's work in other directions. Owing to the long illness of Mr. Wm. E. Scott, the deputy minister and superintendent, he felt that the department had not been able to give the close attention to Institutes this year which they had hitherto received, and the payment of per capita grants and prizes would be late this year.

Mr. Bonavia had much of interest to say with regard to fruit picking, and the splendid way in which the women had risen to the occasion. As an instance the Victoria Y.W.C.A. had sent out 350 strawberry pickers to 39 growers alone; 288 raspberry and blackberry pickers had been sent from the Island to Mission and Hatzic, of which over 200 had stayed in spite of the mosquitoes; 59 girls had been sent from there to the Okanagan, 22 going to the Coldstream and the remainder being scattered through the district. The Vancouver Y.W.C.A. had sent 791 women and girls to the Fraser Valley, and 486 to the Okanagan. Altogether this branch had sent out 1,974 girls. The wages of these girls had been good, as for example at the Coldstream Ranch, they had paid \$30.00 per month and board, while at other points they had risen to \$1.25 per day with board.

He reminded his listeners that it was particularly to the girls and young women that the fruit growing districts would look for packers in the future, and in this connection he told them that 44 packing schools had been held under the direction of the Horticultural Branch, the department of education co-operating so far as junior classes went. The total attendance for the winter 1917-18 had been 659, with 360 sessions, there having been 290 junior students and 369 seniors. He laid particular emphasis on the fact that out of these 369 seniors, 71, or 25 per cent. had been males, while 298, or 75 per cent. had been females.

Boys' and girls' clubs was another of the many topics the speaker touched upon. During the year 1917, thirty clubs had been organized, with a membership of 474. The following competitions had been held: poultry raising, 23; pig raising, 5; calf raising, 1; potato growing, 11. The results had been very stimulating, and the value of the work done had been considered second to no other line of agricultural education. He urged both women's institutes and farmers' institutes to encourage this class of work. Seven kinds of competitions

Tells How He Made His Debut Over The Top

The Late Pte. Lawrence Marshall Writes His First Impressions of Big Things

Only two or three days before Mr. and Mrs. W. J. Marshall received the sad intimation that their son, Lawrence, had died from the after effects of a wound received on October 2, they had received a letter from him telling about his first experience in going "over the top." The letter is almost sensational in its simple telling of big events with life hanging by the merest thread of what appears to be chance. When it is remembered that three weeks after the account was written, the writer received his death blow, probably in the same manner as he describes in his letter, then the communication takes on increased interest, to which is added pathos, as well as perhaps a feeling of reverence for bright-eyed Lawrence, small of stature, but big of heart, who without a doubt crossed the final awesome parapet as bravely as he first went "over the top."

Extracts from his letter run:—
"We went over the top on Sept. 2, and that was when the war started as far as I was concerned. We had a swell barrage, and as soon as it started we went over the top. You would really think the whole world had been let loose when our gunfire was going and Fritz's along with it. We started in the dark, but the place was well lit up. Some of the boys who had been over five or six times said they had never seen anything like it. There were 108 of us who had never been in the front line before and we didn't know how to act. We got in the position for bayonet fighting, but the old-timers threw their rifles over their shoulders as if they were going on a route march. Well, we soon did the same thing, and we did have a route march. We went a few hundred yards before we saw anything of Hienie, then about thirty prisoners came running towards us with their hands up. We went on 1,500 yards and took our objective, then we ran into a regular nest of machine guns. Talk about machine gun bullets flying around, I don't see how any man got through it. The enemy big guns had pretty good range on us and we saw a good many narrow escapes. Talk about men getting knocked out, I saw all I want to see of it. I was running with three others when two of them got hit with machine gun bullets. I wasn't slow in getting down and crawling into a trench near me. The big shells began falling close, and I don't see how so many men miss being hit. I was knocked down by the concussion of a shell but was not hit with shrapnel or hurt at all. A little later a small piece of shrapnel hit me on the end of my thumb and then hit my rifle. It just left a cut across the end of my thumb, but I never felt it.

"It's a funny thing that all the boys seem so happy while going over, for they know what they are going up against. It never bothered me in the least, but I couldn't stay around the wounded men as there were some awful sights. I helped to carry two men to a dressing station and took one by the arm and helped him. A German boy who had been wounded in the leg came up to me with a couple of canes and wanted to come with me to the dressing station when I was helping in one of the wounded. The German prisoners sure get to work carrying in the wounded; the first thing they do is to grab a stretcher and start to work. After the German machine guns are put out of action the men show no fight, they run out with their hands up by the dozens. One thing I was surprised to see was the tanks, and the amount of work they did for us. We always had them go ahead of us and they helped us out fine."

Quite a portion of the letter was filled up with the fine manner in which they feed in the trenches, and what is most welcome to them there.

To arrive home just in time for the Thanksgiving holiday, was the luck of Pte. P. Olds, who has just returned from overseas. Although he enlisted and went overseas at the beginning of the war, he never got to the front, owing to a severe attack of double pneumonia contracted on the journey between England and France. He has fourteen days leave before reporting at the coast, where he expects to receive his discharge.

Board Discusses Committees' Reports

No New Business Before Board of Trade on Tuesday

The promise of a special address from Mr. R. B. Kerr increased the size of the Board of Trade meeting held on Tuesday evening. With the exception of reports by committees, there was little of importance amongst the general business transacted. Mr. P. DuMoulin reported that he had interviewed Mr. Stevens the government telegraph superintendent, who had stated that he had gone as far as he could towards procuring telephonic communication across the lake for ferry purposes. He had claimed that the hitch was with the local telephone company. Mr. Hubbard, who spoke later, claimed, however, that in order to protect their property against possible wanton destruction by Indians they could not see their way to installing the telephone unless the ferryman assumed the responsibility of the equipment and the tolls, and this he would not consent to do. Mr. Hubbard pointed out that if injury was done to such a line, it would affect the whole of their system to White Man's Creek. He thought that the Board should, in the first place, have approached the provincial government for such a line, they in turn could have sent the request through to the Dominion and might have arranged for the necessary guarantee or cost. Mr. DuMoulin suggested that the Board approach the provincial government on the matter now, which suggestion met with the approval of the Board.

Further claims were made that the restrictions against kickaninny fishing were absurd. Mr. L. V. Rogers also pointed out that it seemed ridiculous that so many fish should be allowed to go to waste, and further mentioned that he had received instructions from the Food Board at Ottawa asking that fish consumption might be encouraged at the same time as the government were refusing to allow kickaninny to be caught. The secretary explained that the Vancouver Board had asked that a delegate be sent from the Kelowna Board to attend a conference of all the boards of trade of the province to be held at Vancouver. The executive had decided to ask Mr. Leckie, who was in Vancouver at the time, to represent them, and had wired him to this effect, and had similarly acquainted the Vancouver Board, but no word had been received from either to say what had taken place.

Mayor Sutherland, the secretary explained, had also asked to meet the executive of the Board to arrange for representatives to meet officials of the C.N.R. at Kamloops last Sunday. They had wired to Kamloops for further particulars but as no reply had been received this matter had also been dropped.

A call for new business produced a letter from the Vernon Board of Trade suggesting that the Okanagan Valley should undertake a series of joint advertising amongst the press of the larger prairie cities. Mr. DuMoulin's suggestion that a reply be sent, explaining that the Kelowna Board had already arranged for the expenditure of a large sum of money on an advertising booklet and had no further funds for advertising, met with unanimous approval.

Mr. Pettigrew, the second in command of the Fire Brigade, enquired as to what action had been taken regarding fire prevention in the wholesale district as discussed at the Board's last meeting. Mr. G. A. Fisher also voiced a protest against dangerous practices of destroying rubbish in the business section of the town. The secretary replied that the Board had passed the matter on to the City Council. Ald. Meikle, who was called upon to explain what the City had done, caused some laughter by replying to the effect that the matter was receiving consideration.

The name of Mr. P. P. Woodbridge as a member of the Board was proposed by Mr. DuMoulin and seconded by Mr. L. V. Rogers, and was unanimously accepted.

The president announced that speakers had been arranged for the next three meetings of the Board. Mr. Woodbridge would speak in November, Mr. Grote Stirling in December, and Mr. L. V. Rogers in January. Topics would be announced later.

The report of the Roads and Transportation Committee read during the

(Continued on Page 8.)

Hungary Declares Her Independence of The Central Powers and of Austria

Germany Goes One Step Nearer To Unconditional Surrender

For the last 18 hours practically the whole world has been standing on edge of expectancy awaiting confirmation of the rumoured reply by Germany to President Wilson to the effect that Germany is willing to sign peace on any terms providing the German people are safeguarded. Credence is given to the report by a statement from Foreign Secretary Balfour, who is reported as having exclaimed: "Germany's peace efforts are sincere this time. They come from a people who have given up."

WASHINGTON, Oct. 17—American correspondents in London confirm the press despatches that Germany is willing to accept Wilson's terms, providing that assurances are given that the interests of the German people will be safeguarded. The text of the German note had not been received here, however, by midnight.

LIEUT. CYRIL MOUBRAY IS KILLED IN ACTION

Mrs. Moubray Loses the Second Son in Four Months

As elsewhere in the Empire, Kelowna mothers are being called upon to pay that dreadful sacrifice of giving their sons to the cause of the war, and nobly they have borne the burdens of sorrow which have been thrust mercilessly upon them. Fortunately, but very few have received a blow as hard as that which came to Mrs. Moubray two days ago, when news reached her that her youngest son had been killed in action. It is only a little over three months ago, on the 2nd July, that Mrs. Moubray received the sad intimation that her eldest son had died of wounds, and now a message has reached her telling her that Lieut. Cyril Moubray was killed last Thursday, the 10th October.

Second Lieut. Cyril Lloyd Moubray, of the Royal Engineers, was born in Florida, U.S.A., on May 19, 1894. He was educated at the Elizabeth College, Guernsey, and at Sir Roger Manwood's School, Sandwich, England. After three years' training in civil engineering he passed in 1913 his student's examination, and came to B.C. in 1914. At the outbreak of war he was with the P.G.E. Railway, but left their service in 1915 to enlist in the 47th Batt., and went overseas with them to France in the following year. In 1916 he was successful in getting his commission with the Imperial forces, R.E.

SIR CHARLES TUPPER HERE NEXT WEDNESDAY

Event of Importance Should Not Be Missed

A meeting and address of combined interest and importance is to be held here next Wednesday evening, when Sir Charles Hibbert Tupper will speak on the work of the British Navy and will accompany his address with a number of lantern slides, illustrating the navy and its work. The purpose of the visit of this distinguished man to Kelowna is to form a branch of the Navy League here, a cause of the greatest importance in these days when the men of the navy are risking and sacrificing their lives in order to hold the Empire intact and to maintain freedom for Canadians. The Navy League is considered by many to head the list of all public supported institutions owing to the immense work which has fallen upon our brave sailors in manning ships of commerce as well as of war in these days of submarine piracy.

Sir Charles will be accompanied by his secretary, Mr. H. J. Davis, and the lecture and pictures will present an opportunity seldom given to the people of the far West to learn something about that great power which has controlled the world. The address will commence at 8 o'clock. The place of meeting will be announced by posters in a few days.

The momentous news, and the magnified rumours thereof, which reached the city last Sunday evening, led to the Courier once again installing a bulletin service for the benefit of the public, and the interest shown by the public the last few days has well repaid the expense. Whether this luxury will be maintained or not, future events in Europe and the length of the Courier's purse will prove. Many will recall that for the first two and a half years of the war the Courier looked after the requirements of the public so far as their hunger for news went, but when the war dragged on and printing expenses grew larger as receipts grew smaller the service was stopped and the C.P.R. and government bulletins the stage is set, we believe, for the final scene, where the villain gets his just deserts, the Courier is going to do its best to see that the patriotic people of Kelowna are given seats as near to the stage as possible, so that they may lead in the cheering when the curtain is rung down on the death scene of German autocracy and cruelty, with the band playing God Save the King.

Are You Saving for Victory Bonds?

Now for some more about that Juvenile Court which Kelowna has not got, and which—please note this—the Courier never said the city ought to have. In these columns three weeks ago we had the misfortune to make the erroneous statement that nothing more had been heard of Kelowna being granted the rights of a Juvenile Court since the matter was taken up by local officials after some nefarious exploits of local "bad boys." Only today, Mr. J. W. Jones, M.L.A., brought to our attention that on April 23 of this year the provincial government at Victoria gave their assent to a new "Juvenile Courts Act," under which the Lieutenant-Governor in Council may from time to time establish a Juvenile Court for any city, or portion of a city. From this, one would imagine that all Kelowna has to do is to make proper representation to the Lieutenant-Governor in Council if it desires such a Court. Whether this is in any way tied up by the Dominion Act

under the Statutes of 1918, chapter 40, we do not pretend to say, we are quite content to take the word of Mr. J. W. Jones that there is no further need of action by him, and that the City can now make its own application if it wishes to do so. Lest any citizens should immediately urge the formation of such a court, it will probably be as well if we point out some clauses in the Act which would have to be considered by an economic council. "The municipal council of the municipality within which the offense with which any child is charged was committed shall be liable for all expenses of maintaining the child in any detention home." "The municipal council of every municipality in which a juvenile court is established and in which there is no detention home of adequate capacity shall provide a detention home satisfactory to the Attorney-General." So apparently there are some very sound reasons why such a Court should not exist here. On the other hand, as one citizen was heard to remark a few days ago, it might be well to have such a Court existing, even if it was never put to a use.

Are You Saving for Victory Bonds?

On more than one occasion we have hinted in these columns that the welcome home to returned wounded soldiers is lacking in demonstrative enthusiasm. Apparently Kelowna is not the only place like this, however, for a returned soldier, writing to the "Montreal Star," voices his feelings as follows: "When these boys arrived wounded, gassed, sick, how many were there to greet them home? Not a strain of music, not a crowd of civilians to give them the rousing cheer that is coming to them, not the 'God bless you' that should have been thrown at them thousands of times. Why is it that those who hold honorable certificates of exemption do not turn up on such occasions to show the boys how much they are appreciated by those who would willingly go 'over there' if they could? Is it ignorance? Is it non-patriotism? Is it pro-Germanism? Is it not one's duty to turn out from his or her place of business and give at least one rousing cheer to those boys who have suffered for us—to protect us and ours?" We often wonder what Capt. Robertson thinks. He gives a cheer from the boat's syren, it is true many people flock down to the wharf in response, but with the exception of a curious stare and a hand-shake from a few particular intimates, that is all.

Are You Saving for Victory Bonds?

One loyal citizen informed us today that an orchestra had announced its intention of shortly visiting Kelowna and organizing a dance, part of the proceeds of which would be in aid of the French Red Cross. He denounced the orchestra as a money-making body of musicians, using a worthy institution as a means of increasing their income. He may be right, for before now we have had travelling entertainers visit us who have given percentages of their receipts to patriotic societies palpably because they knew their net receipts would be increased by so doing. One can, perhaps, scarcely raise a protest against such proceedings, because more than one case may have been the outcome of perfect loyalty, and then they have brought entertainments which but for their visit we should not have had the pleasure of enjoying. But Kelowna possesses an orchestra, and some first-class musicians at that and they are quite capable of catering to the demands of our lovers of the "light fantastic" and to raising money for Red Cross work as well. No one would refuse aid to the Red Cross of our brave French ally if officially asked for, but while our own brave boys continue to push to the forefront of every advance it would appear as though the Canadian Red Cross can easily make good use of our spare cash.

Are You Saving for Victory Bonds?

BUY CONTINUED PROSPERITY

Before our last Victory Loan financial experts were dubious as to the outlook for Canada. She could not borrow abroad. It was necessary that she have a large available capital to finance credits for British and foreign war orders. Canada was thrown on her resources and appealed to her citizens.

The remarkable over-subscription of the 1917 Victory Loan completely changed the uncertain outlook which prevailed. It gave a new impetus to agriculture, commerce and prosperity. It invigorated our efforts in the war. It allowed our provincial Governments, municipal and other borrowers to finance their requirements at home. In short, it gave another lease of life to the activities of the Dominion.

The Victory Loan of 1918 will accomplish the same purposes. Upon the ready response of the large and small investor, depends the immediate economic future of Canada. Everyone's prosperity is involved.

Prepare to buy continued Prosperity in Victory Bonds.

Mason & Risch Co.

AN INDEPENDENT TUNER
Tuning for Piano Firms—Piece work only.

ATTENTION—Mr. Perkins is late owing to illness in his home, but will be in Kelowna in a few weeks.

ELLISON-RUTLAND NEWS

Mr. and Mrs. Monford spent the week-end in Enderby.

Mr. and Mrs. Charles Christian, of Lumby, B.C., have taken up their residence in this district.

Mrs. A. Willcock and family arrived home on Saturday from Cereal, Alta. Mr. Willcock has remained to plant the fall crops.

Miss Mary Hay came over from Westbank where she is engaged as teacher, and spent Thanksgiving with her parents.

Mrs. Wm. Mack journeyed to Sicamous on Friday to meet Mrs. Jno. Mack, who is returning from a two months' visit at Edmonton.

Miss Elizabeth Carney arrived on Saturday afternoon's boat from Salmon Arm, where she has been visiting friends for the past month.

SUMMERLAND TO HOLD ANNUAL FALL FAIR

The Summerland Fall Fair takes place on Wednesday and Thursday, October 30 and 31. Both visitors and competitors at the fair last year will well remember the excellent quality of the numerous exhibits, particularly in the apple section, and there is no reason to believe otherwise than that this year's display will be the best yet. It would be particularly interesting to see a number of Kelowna growers enter exhibits in many of the sections. In addition to the fruit and vegetable sections, there are the customary classes for horses, cattle, pigs, women's institutes, schools and bankers' competitions for boys and girls.

School Column

By JAMES GORDON, Principal.

One of the chief aims of education is to supply the ability to earn a livelihood. This it does, not by training for special trades or professions, but by instilling into the mind of the children the elementary principles of practical knowledge. Education makes no pretence of fitting boys and girls for this and that line of work or activity, and employers of labour who judge the work of the schools by the rapidity and accuracy with which a boy or girl can add up a column of figures while out of his usual environment and under a nervous strain cannot possibly give a fair judgment.

One might put this whole matter in sharp relief by asking the question: What may a boy or girl be reasonably expected to know, understand, and intelligently use when he or she leaves the Entrance class of the Public School? Within the limits of this column one cannot give a very detailed answer. He can do little more than state conclusions. A pupil after leaving the Public School should be able to write clearly and neatly. He should be able to read distinctly and with such expression as will convey the meaning of what is read. One would expect him to be able to reckon reliably—to do simple industrial problems—to understand the elementary principles of arithmetic. One would expect him to write an intelligent letter to a friend and spell it correctly. He should be able to write a simple business letter—very simple, for business forms constitute a specialized branch of knowledge. A sound knowledge of the chief historical events that have helped in the evolution and development of his country; a reasonable knowledge of the peoples of the world, their lands, homes, industries and trades; enough knowledge of drawing and colour-work to be able to appreciate correct forms and color schemes; an elementary knowledge of the form and structure of the English language and a love for as well as a knowledge of some of the great poems, and an appetite to read more of the great prose writers who are necessarily briefly represented in their readers; a love for nature and natural objects together with an elementary knowledge of the laws of health; he should have the rudiments of gardening; his fingers should be able to handle simple tools correctly and he should know their uses,—these are what you may reasonably expect in addition to the three R's.

The secretary of Convocation of the University of British Columbia requests the local newspapers to give publicity to the following notice:—At the last session of the provincial legislation it was enacted that, "all graduates of any university in His Majesty's dominions who were actually residing in the province and were so graduated prior to the first day of May, 1916, and who produce to the Registrar of the University satisfactory proof of their qualifications, accompanied by a fee of two dollars (\$2.00), on or before the thirty-first day of December, 1918," may become members of Convocations of the University of British Columbia. There may be university graduates in this city who are desirous of becoming more closely identified with our provincial university's work. These may become members of convocation if they can meet the requirements of the University Act and will do so before the close of the year.

AFTER WAR PROSPECTS GOOD FOR B. C. LUMBER

Commissioner Beale Reports as to Possible Markets

Mr. M. A. Grainger, the Chief Forester for B.C., has issued from the Trade Extension Office of the provincial department of lands an extensive report on eastern Canadian lumber market conditions in relation to British Columbia industry, written and prepared by Mr. L. B. Beale, provincial lumber commissioner. There is a good deal of interest in the report even to those who are not directly interested in the lumber business but who simply appreciate the fact that lumbering is one of the chief industries of the province.

Investigation as to the amount of B.C. lumber being shipped into Eastern Canada this year suggests that the total for the 12 months ending December 31, 1918, will be about 150 million feet. Prior to and in 1914, the annual shipment was approximately 25 to 30 million feet. The cut in eastern Canada will only be about 50 to 60 per cent. of normal, for although the demand there is good, labor is scarce. Immediate requirements in B.C. appear to be doubtful, owing to the uncertainty of commercial prospects due to the war. Prospects for

after the war are good, and it is believed that many industries will be looking to new sources of supply to meet demands, and the writer expresses his belief that Eastern Canada can normally take 250,000,000 feet annually from B.C., and that the mountain mills can look for a good share of this business, while the coast spruce for aeroplane work will prove another market worth following. It is important in every case, however, that the mills supply exactly what the markets require if B.C. lumber is to push into the markets of the North American continent.

"ALLIED LOAF" FOR CANADA

As cereal substitute flours are now becoming available from the new crop, their use in the Canadian standard loaf will be increased shortly to 20 per cent, so that Canadian bread will conform to the "Allied Loaf" policy, as decided upon by the Food Controllers of the respective countries.

CREAMERY BUTTER NEEDED IN BRITAIN

For Six Weeks All Except B. C.'s Supply Is Commandeered

Great Britain and her allies have been short of butter for several months, and the Canada Food Board have been asked to take steps to relieve the condition which has borne heavily upon the people of Great Britain, France, Italy and Belgium. The pressure upon cargo space has been heavier than ever, since the United States has entered the war and began moving her troops across the Atlantic. Ships are needed for soldiers and munitions of war, as well as for food stuffs. The main staple food stuffs naturally receive the first consideration.

Today, in Great Britain, one-half pound butter or margarine per month, per person, is all that the supply allows, as compared to the creamery butter consumption of two pounds per person per month in Canada.

The Canadian government, on the recommendation of the Minister of Agriculture and the Canada Food Board, at the request of the British

Ministry of Food for increased shipments, has commandeered all the creamery butter made between September 30th and November 9th inclusive, in the provinces of Alberta, Saskatchewan, Manitoba, Ontario and Quebec, for export to Great Britain and Allies.

This does not mean, however, that there is the least justification for hoarding or profiteering. There are unaffected by this commandeering order 20,000,000 pounds of creamery butter made before September 30th. Dairy butter is not affected by the order. The average cost to cold storage companies for butter now in store is about 44½ cents a pound. The profits of storage companies selling to wholesalers are limited by the Canada Food Board Order No. 45 of June 5th, to 4 per cent, and of wholesalers selling to retailers to 10 per cent. over cost delivered to warehouse.

The present supply of creamery butter in storage, together with dairy butter produced during the next six weeks, will be quite sufficient to fill the ordinary demands of the Canadian public.

Why Canada must borrow money to carry on

Because Canada has put her hand to the plow and will not turn back:—

—our country is in the war on the side of liberty and justice and will stay in it till complete victory is won and the unspeakable Hun is smashed and beaten to the ground;

—a nation at war must make tremendous expenditures in cash to keep up her armies and supply them with munitions, food and clothing;

—Canada must finance many millions of dollars of export trade in food, munitions and supplies which Britain and our allies must have on credit;

—for these purposes Canada must

borrow hundreds of millions of dollars—

And, this money must be borrowed from the people of Canada:—

Therefore, Canada will presently come to her people for a new Victory Loan to carry on.

+ + +

Canadians will loan the money by again buying Victory Bonds.

The national safety, the national honor and the national well-being require that each and every Canadian shall do his duty by lending to the nation every cent he can spare for this purpose.

Be ready when the call comes to see your country through in its great war work

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada

ORDER IN COUNCIL

Government House, Victoria.
September 9th, 1918.PRESENT:
His Honour
The Lieutenant-Governor in Council:
WHEREAS by an Act respecting Pound
Districts it is enacted that the Lieutenant-Gov-
ernor in Council may, by order in Council made
publicly by notice in the British Columbia Gazette,
constitute any part of the Province of British
Columbia not within the limits of a municipality
into a pound district.AND WHEREAS under the provisions of this
Act application has been made by proprietors of
land to constitute a pound district in that part of
the Electoral district of South Okanagan in the
County of Osoyoos, to be known as the Kelowna
Rural Pound District and described within the
following boundaries:"According to the registered map or plan depos-
ited in the Land Registry Office at Kamloops, B.C.,
and being subdivisions of Lots 128, 129, 130, 136, 137,
140, and 149, Township 26.
Commencing at the north-west corner of the
South half of lot 45, being a sub-division of Lot 137,
then going east to north-east corner of the south
half of the north-west quarter section 20, then
south to the south-east corner of Lot 23, sub-division
of Lot 129, then west to south-west corner of
Lot 24 in Lot 129, then south to the northeast
corner of Lot 10, sub-division of Lot 147, then due
west to the south-west corner of Lot 136, then north
to north-west corner of said Lot 136, then east to
the south-west corner of sub-division 42 in Lot 136,
then north to point of commencement, viz: north-
west corner of south half of Lot 45 in Lot 137."AND WHEREAS notice of intention to consti-
tute such district a pound district was given in
accordance with the requirements of the Act, and
no objection has been made by any proprietor
within the proposed pound district:On the recommendation of the Honourable the
Minister of Agriculture and under the provisions
of the "Pound District Act" His Honour the
Lieutenant-Governor of British Columbia, by and
with the advice of his Executive Council, has
been pleased to order, and it is hereby ordered,
that the district as above described, be constitu-
ted a Pound District.J. D. MACLEAN,
Clerk to the Executive Council,
Department of Agriculture,
Victoria, B. C.,
Sept. 17th., 1918.

LOCAL and PERSONAL

Mr. and Mrs. A. J. Smith arrived
from the coast on Friday morning.Miss F. Marshall left on Wednes-
day morning for Winnipeg, Man.Mrs. J. Richards returned on Fri-
day morning from a month's vacation
spent at the coast.Mrs. J. T. Graham and two children
left on Tuesday morning's boat for
Viceroy, Sask.Mr. A. McGregor and crew arrived
the latter part of last week to repair
the wharfs and boat houses.Mrs. W. A. Hunter left on Wednes-
day morning's boat for the Cariboo
district.Mr. and Mrs. W. McCubbin re-
turned to the city on Friday morn-
ing's boat.Mr. A. Badley returned to the city
from the prairie on Friday after-
noon's boat.Miss Nettie Harvey arrived home
on Saturday afternoon's boat on a
week's vacation.Dr. Knox left on Tuesday morning
for New York to attend a big confer-
ence of the medical fraternity.DEATH—On the 15th instant, the
infant son of Mr. and Mrs. R. W.
Thomas, aged 24 days. Interred at
Kelowna Cemetery.There was a meeting of the City
Council on Tuesday evening, but
owing to the absence of Mayor
Sutherland the meeting adjourned
until Thursday evening of this week.Miss M. Hay, of Westbank, and
Miss McLaughlin, of Penticton, were
visitors in the city over Sunday, re-
turning to their respective school dis-
tricts on Monday afternoon's boat.Mrs. F. B. Small received a tele-
gram the latter part of last week to
the effect that her husband, Pte. F.
B. Small, had received gun-shot
wounds in both legs on the 23rd of
September. Pte. Small went over-
seas with the 172nd Batt. in the fall
of 1916 but had not been at the front
very many months on account of
rheumatism.Those who remember the Rev. W.
L. Crichton, who was out here on a
visit to his brothers, Messrs. A. H.
and B. Crichton, about 14 or 15 years
ago, will be interested to hear of a
remarkable honour just achieved by
him. He got a few months leave from
his bishop to cross with the army to
France. He went over with an am-
bulance unit and stayed in France
six months, having just returned to
England. Before leaving, he was
awarded the Croix de Guerre, as well
as a pipe from General Petain for the
best work performed and for bring-
ing in the most wounded in his unit.

Carpenter and Virginia Lee Corlin. For children from 5 to 90;
Prices, 15c and 35c.

MRS. SPOFFORD GIVES APPROPRIATE ADDRESS

Appeals to Women to Prepare for
New ResponsibilityIt would be difficult to imagine a
more apt address than that given be-
fore the conference of Women's In-
stitutes at their meeting, on Wednes-
day evening of last week by Mrs.
Spofford, of Victoria, who in a
speech of over one hour's duration
appealed to the women of the pro-
vince, and particularly to her listen-
ers, to prepare themselves for the
time not far distant when women
would have an equal say with men in
the government of the country.Commencing with a comparison of
the home of today with that of yester-
day, the speaker, in a quiet and
pleasing voice, traced the events
through a girl's life to womanhood,
laying emphasis on those things
which would influence to good or bad
and thus injure or improve women's
own sphere of influence in the future.
She deplored the present day lack of
home ties, instancing life in the
modern flat, and the present day lack
of true hospitality.The speaker next illustrated the
change in the status of womanhood
as a factor in the world, and the
efficiency of woman's work where
she had taken the place of man in both
skilled and unskilled labour. She
showed clearly what the call to
national service had done for woman
and her cause, in making easy her
path into a sphere for which previ-
ously she had had to fight for every
step. This had led to the momentous
and historical events of the war such
as the granting of the franchise to
woman. The remainder of the address
was an exhortation to women to fit
themselves for the responsibility
which the gaining of the franchise
placed upon their shoulders.Mrs. Spofford met with a deservedly
hearty round of applause, which
was further expressed by an enthu-
siastic vote of thanks.

DIED NOBLY IN THE DISCHARGE OF DUTY

Mrs. Fred Small is in receipt of a
letter from a lieutenant of the com-
pany in which her brother James was
serving when he met his death. The
communication states that the un-
fortunate man was killed by a shell
during an attack south of the Arras-
Cambrai Road. His death was in-
stantaneous and he suffered no pain.
The letter adds: "He was a brave
man who died nobly in the discharge
of his duty and every officer, N.C.O.
and man in the company join me in
expressing our deepest sympathy."

PROPERTY OWNERS ARE TAKING NO CHANCES

"A stitch in time saves nine," runs
the good, old proverb, and with equal
truth it might be said that a patch
on the roof saves a dozen, for a few
holes and tears let both wind and
wet get underneath the roofing, and
then the trouble starts, both to the
roof and to the building and contents.
Kelowna people, however, appear to
be of the wise kind, for quite a num-
ber are taking advantage of the stay
in town of Mr. J. W. Howe, of Cal-
gary, a roofing specialist. Mr. Howe
carries with him a plentiful supply of
asphalt, as well as the appliance for
melting it and putting it on, but he
carries more than this with him, for
he brings along a reputation for good
work which it is worth while looking
into. He has given splendid satisfac-
tion to numerous property owners at
Penticton, Grand Forks and many
other cities in the Boundary district.
Since his arrival here some four
weeks ago he has done work on the
Leckie Block, the Courier, Hunter,
Rowcliffe, Keller and other buildings
to their complete satisfaction. This
is the best and most needful time
of the year to get a roof fixed, as it
is not known what damage the hot
summer sun has caused nor what
the autumn gales will do, and it is
few roofs that can pass through these
and prove weather proof when the
snow and ice of January and Febru-
ary put their forces against them.

REVIVAL SERVICES IN THE BAPTIST CHURCH

The special evangelistic services in
the Baptist Church commenced on
Monday evening last, and thus far the
initial attendances have been good.
The evangelist giving assistance to
the pastor of the church at this time
is the Rev. Andrew Grieve, himself
the pastor of the Penticton Baptist
congregation. He is no stranger to
Kelowna people, and we know he will
attract large numbers during his two
weeks' campaign in our community.
As a speaker, he is very forceful
and clear on all points, and when his
native Scotch reserve has been cast
aside after the first opening sentences
his appealing eloquence grips right
through to the end.
The meetings begin each evening
at 7.45 with a fifteen minutes Song
Service, and those who appreciate the
singing of the oldtime Sankey pieces
will find their element in this hearty
service of praise.

WOMEN'S WORK AND THE DEPT. OF AGRICULTURE

(Continued from page 1)

had been offered this year, namely: pig raising (individual), pig raising (sow and litter), calf raising, poultry raising, canning, potato growing and corn growing, but unfortunately only pig, poultry, calf and potatoes had been taken up. Thirty-six clubs were this year in operation as against 30 of last year, whilst 43 competitions were being carried on. He compared the working of boys' and girls' clubs here with those in the States, where there was less red tape and where they were proving more popular.

A few interesting figures were also given with regard to the greater production campaign for the present year. It was estimated that 4,391 acres had been brought under cultivation in the whole province in cities and their immediate neighbourhood which would not otherwise have been productive. In the coast cities alone, 1190 acres had been made to produce excellent crops of market produce, and much of this work had been carried on by women and children.

In concluding, Mr. Bonavia referred to the grant for increased food production which had been made by Ottawa to the department in connection with stimulating production along certain lines. They had authority to purchase canning outfits for Women's Institutes, but unfortunately this had come too late to be taken advantage of this year. He suggested to the delegates assembled that they get ready during the winter to organize community canning clubs for 1919 along similar lines to those in Ontario and the States. There were no doubt other means of assisting in food production by means of this grant and his department was looking to these conferences for ideas and suggestions.

Mr. Bonavia was accorded a vote of thanks for his address and for the information so carefully given.

AFTERNOON OF SPORT AT CHESTERFIELD SCHOOL

Chesterfield School was en fete on Thursday last, Mr. Bennett, the principal, having invited the parents and friends of the boys to an afternoon of games and sports. The proceedings opened with a keenly contested cricket match, Parents vs. the School. In spite of the boys' best efforts the parents managed to win after a thrilling game. Mr. E. M. Carruthers made top score for the Parents, and Larry Henderson top score for the School, scores totalling: Parents, 30; School, 25.

The programme of sports which followed proved the boys keen rivals in the various events. At the close of the sports, the boys and their guests were entertained at tea by Mrs. Harvey, the hungry sportsmen doing ample justice to the good things provided for them. After the repast, Mrs. P. DuMoulin presented the prizes donated by the parents. A silver medal, given by Mr. Gorrie to the boy winning most points during the afternoon was carried off by Tom Taylor. A delightful afternoon was brought to a close by ringing cheers from the boys for Mr. Bennett and Mrs. Harvey.

The results of the sports were: 80 yards handicap, 1, Larry Henderson; 2, Howard Carruthers; 3, Billy Carruthers. High jump, 1, Pat Taylor; 2, Murray Taylor. Sack race, 1, Tom Taylor; 2, Howard Carruthers; 3, Murray Taylor. Obstacle race, 1, Howard Carruthers; 2, Pat Taylor; 3, Tom Taylor. Long jump, 1, Tom Taylor; 2, Pat Taylor. Mothers' race, 1, Mrs. Lionel Taylor; 2, Mrs. Pooley. 200 yards Handicap, 1, Tom Taylor; 2, Pat Taylor; 3, Larry Henderson. Visitors' race, 1, Lalla Taylor; 2, Norah Carruthers. Consolation race, 1, Tony Pooley; 2, Laurel Fox; 3, Robin Lyons. Tug-o-war, Billy Carruthers' team.

BOARD DISCUSSES COMMITTEES' REPORTS

(Continued from page 1)

evening stated that some attempt had been made by the superintendent to improve the road leading to the Cemetery by gravelling. The result had not been satisfactory and they recommended that a committee be appointed to investigate the feasibility of obtaining a better grade, avoiding the sandy hill and sharp curve by keeping to the left of the hill. Mr. Rogers voiced the opinions of the Board in the need of action to improve this hill.

The Publicity Committee reported that they had been advised by the publishing house printing the Board's booklet that the book was being rushed and would be completed at the earliest possible date. They also reported the purchase of a number of orchard scenes in the district which had been sent to the Canadian Horticulturist with a promise that they would be published in their monthly magazine without any cost to the Board.

The report of the Finance Committee was read by Mr. P. DuMoulin, its chairman, who gave the following details as at Sept. 30 last: Cash on hand, January, 1918, \$286.32; rent on account, \$62.50; 18 paid subscriptions at \$5.00—\$90.00; total, \$438.82; less expenditures of secretary's salary, printing, etc., \$108.65, and unpaid accounts of \$77.49, leaving a balance of \$252.68. To this could be added the balance of rent, \$87.50 and 68 unpaid subscriptions amounting to \$340.00, making a total to add of \$427.50, which again gave a balance of \$680.18. From this could be deducted \$40.00 for the balance of salary, \$25.00 for cuts, and \$421.20 for the cost of the booklet, amounting in all to \$486.20, and leaving a balance of \$193.98. As this was on the supposition that 68 unpaid subscriptions were paid before the end of the year it was plainly necessary that all dues should be paid without delay.

The "Life-Like" Phonograph

When we have placed a New Edison Diamond Amberola in your home, put your favorite record on the phonograph, and then stand with your back to the instrument as the melody flows out.

The illusion is perfect. You almost feel that someone is in the room singing or playing—so "life-like" is the reproduction.

The NEW EDISON DIAMOND AMBEROLA and AMBEROL RECORDS

are Mr. Edison's final achievement in instruments and records of this type. Enjoy them to your heart's content by taking advantage of

Our Free Trial Offer.

Come in and select any instrument you like—we'll send it to your home with 12 of the finest Amberol Records you ever heard. Keep this outfit a week—play it to your heart's content.

If you decide to keep it, we will arrange convenient terms if you like this method of payment.

Crawford & Co., - Kelowna, B. C.

STYLISH WEDDING LAST WEEK AT BAPTIST CHURCH

Patterson-Gowen

A stylish and extremely popular wedding took place at thirty minutes after noon on Thursday last, the 10th instant, at the Baptist Church, when the Rev. W. Arnold Bennett, assisted by the Rev. E. D. Braden, united in matrimony Mr. William Thomas Patterson, son of Mr. Andrew Patterson, of Kelowna, and Miss Gertrude Alice Gowen, daughter of Mrs. E. J. Gowen. The bride, who was given away by her mother, was becomingly attired in a dress of ivory messaline, with white Georgette pinafore effect, daintily embroidered with pearl beads and silk, finished with a silver buckle. She also wore the customary bridal veil and wreath of orange blossoms and carried a bouquet of white sweet peas and sprangeri.

The bridesmaids were Miss Lily Patterson and Miss Ella Patterson, sisters of the groom, both of whom wore dresses of ivory silk Japanese crepe, beaded, and with side panel effects. Mrs. Gowen, the bride's mother, wore a pretty dress of dark pearl grey messaline silk, trimmed with gunmetal beads, buttons and buckle, with grey silk and velvet hat suitably trimmed. The duties of flower boy and girl were prettily carried out by Master Frankie Alsard, in an Oliver Twist suit of white velvet, and little Doris Parker, who daintily bestrewn the path of the happy couple with flowers from white crocheted flower baskets. Mr. James McEachern ably performed the duties of best man to the groom. Miss Ethelwyn Jones rendered appropriate music from the organ during the ceremony, and during the signing of the register a vocal solo was very pleasingly rendered by Mrs. E. D. Braden.

The church was tastefully decorated by friends of the bride, as was also the Tea Room on Pendozi Street, where a reception and luncheon were held. Between eighty and ninety guests were present at this reception, and drank the customary toasts of health and happiness to the bridal pair with the warmth of sincere friendship. Each of the happy couple responded to the good wishes, the groom, after thanking his guests, expressed the wish that their friendship might be lifelong. The popularity of the contracting parties was well exemplified by the large number of presents given to them, as well as the good wishes which were conveyed from far and near. They left on the afternoon boat for the coast, where a honeymoon is being spent. A small crowd assembled on the wharf to bid them adieu, and some interest was added to the affair by the bride throwing her bridal bouquet from the top deck of the steamer down to the crowd below, where, in honour of old superstition, it was to be caught by one of her unmarried friends, who

would then be the next fortunate bride. But alas, for superstition! The two people into whose hands it fell had both passed into the realms of matrimony long ago.

Mr. and Mrs. W. T. Patterson will take up their residence in Kelowna for the winter, after which they will leave for Rumsey, Alta., where Mr. Patterson has been a successful farmer for a number of years.

BOY SCOUTS' COLUMN

Edited by "Pioneer."

Troop First! Self Last!

Orders by command for week ending 26th of October, 1918.

Duties—Orderly patrol for week, Wolves; next for duty, Eagles.

Parades—The combined troop will parade at the Club-room on Wednesday, 23rd October, at 7.15 p.m.

THE ANNUAL MEETING of the local association will be held at the Club-room on Tuesday, 22nd of October, at 8 p.m., when officers for the ensuing year will be elected, reports for the past year received, and any other business submitted dealt with. Scouts and Cubs will please bring notice of this meeting to the attention of their parents, who are requested to attend, as well as all other interested in the welfare of the troop and pack.

Recruit Bert Cooper is attached to the troop for instruction and temporarily posted to the Owl Patrol.

We wish to thank P. L. Calder for the gift of a crate of cantaloups to the troop, and it is hardly necessary to add what became of the cantaloups.

We have received two new bugles and a drum and the first practice is being held this afternoon under the kind supervision of Mr. Gore.

Scouts in the troop will please see that their uniforms are replenished and brought up to requirements immediately, including the taking away of that bonnet effect from their hats. It is interesting to note that all pictures of the cadets for the Royal Air Force appearing in the Old Country illustrated papers now coming to hand show the cadets all wearing shorts. We believe it is only a matter of a very short time before shorts will have entirely taken the place of slacks and breeches as the summer uniform for all branches of the military forces. Why should not everyone be allowed to be as comfortable as possible anyway?

The books in our library are now available again to any Scouts who wish to borrow them.

"Some Treatment"

"Willy: 'When some people's teeth ache they have them filled, don't they?'"

Mother: 'Yes.'

Willy: 'Well, my stomach aches, could I go to the sweet-shop and get it filled?'—The Scout.
